

Alex Rubbish & Recycling Inc. driveway, parking lot, and property policy

Alex Rubbish and Recycling's larger heavy commercial trucks and heavy duty steel roll off containers used in our daily services may cause damage to non-commercial grade driveways, parking lots, yards, and trees not trimmed away from access areas.

Spring time thaw, mud, rain, winter snow, summer heat on asphalt, over grown trees, unloading and loading heavy duty steel roll off containers from our trucks may cause unwanted damage to property.

Typical damage that may occur due to the use of our large equipment is as follows:

Ruts, grooves, divots, and broken tree branches.

Location or setting of steel roll off containers on driveways, property, and parking lots will be determined by the property owner or manager.

Alex Rubbish and Recycling within our abilities will try to minimize damage to customer driveways, parking lots, and property.

For the safety of our drivers and to preserve customer's property Alex Rubbish & Recycling will not enter, set, or pick up garbage or steel roll off container in or on a non-commercial grade driveway, roadway, or yard without written permission from the property owner or manager.

By signing this form the customer of Alex Rubbish & Recycling is allowing Alex Rubbish & Recycling to enter or access non-commercial grade driveways, parking lots, and property.

Ruts, grooves, divots, and broken tree branches are the responsibility of the property owner or manager and not Alex Rubbish & Recycling Inc.
